

## Leadership, teamwork, and collaboration are the ultimate goals for achieving organizational success.

Leadership, including clarity, candor, and courage will determine the alignment and allegiance of your team. The culture you create through discipline and trust will produce energy for achievement. Cross-train, unify, and collaborate to achieve your goals for success.

Teamwork trains, motivates, and co-elevates and produces the collaboration needed for high performance and success.

### LEADERSHIP

Accept the call to leadership and learn the proven techniques of successful leaders. Unleash effective communication to motivate your team. Learn to create clarity for your organization to accomplish your goals. Create team alignment and take action on the plan to succeed. Embrace leadership actions with courage to become an exceptional leader.

### TEAMWORK

Work together to select, onboard, train, motivate, and co-elevate your dental team. Build your desired culture. Set your basic requirements of teamwork to include trust, ownership, communication, accountability, results, and excellence. Incorporate high performance teamwork strategies. Keep your teamwork energy positive to build a high achieving team working together.

### COLLABORATION

Coach your team to plan, budget, and set goals and strategies. Learn to implement the plan, evaluate results, and solve problems. Team development includes open communication and discipline to follow established systems to achieve goals. Build a diverse yet unified team through organizational order and collaboration for success.
